Executive Architectural Overview & Skills

A comprehensive breakdown of engineering competencies built over 20+ years of designing and scaling web architectures, micro-frontends, and cloud integrations.

Technical Capability Radar

Core architectural mastery ratings across key engineering pillars.

98%	95%	96%	90%	88%	95%
Frontend	a11y	React/Ang	Node.js	Cloud/K8s	Perf Opt

● Frontend & UI Frameworks

JS (ESNext)

TypeScript

React.js

Angular

HTML5/CSS3

Sass/SCSS

Tailwind CSS

WCAG 2.1 AA

● Backend Runtimes & Build Tools

Node.js

Express.js

RESTful APIs

GraphQL

Webpack

Vite

● Cloud Native & Infrastructure

Docker

Kubernetes

OpenShift

AWS

Azure

GCP

Open Source Packages & Utilities

Production-ready Node.js and browser utilities published under the [@kcak11](#) scope.

[View all packages on npmjs.com/~kcak11.npm](#)

@kcak11/myip

Lightweight CLI & Node.js utility to fetch public and local IP addresses asynchronously.

CLI

Network

Node.js

```
npm install @kcak11/myip
```

@kcak11/text-scrambler

Isomorphic text scrambling and obfuscation utility for Node.js and Browser environments.

Isomorphic

Text Scrambling

Security

```
npm install @kcak11/text-scrambler
```

@kcak11/sysinfo

Cross-platform system diagnostics and hardware metrics collector for the Node.js runtime.

Diagnostics

System

Node.js

```
npm install @kcak11/sysinfo
```

js-queryparams

Cross-browser compliant utility for extracting and parsing URL query parameters.

Browser

URL Parsing

Utility

```
npm install js-queryparams
```

logger-web

Lightweight browser-first logging framework supporting custom levels and formatting.

Logging

Diagnostics

Browser

```
npm install logger-web
```

file-content-replacer

Recursively search and replace content across deep directory trees with pattern matching.

FileSystem

Build Tool

Replace Content

```
npm install file-content-replacer
```

Multi-Industry Domain Leadership

Architectural solutions engineered over 20+ years adapted to sector-specific requirements, regulatory compliance, and operational scales.

🛒 Retail & e-Commerce

🏦 Banking & Brokerage

🏥 Insurance & Healthcare

🛡️ BPM, Automotive & Security

🛒 Retail & e-Commerce

KEY CHALLENGE:

High-volume seasonal traffic spikes, real-time inventory updates, seamless checkout UI.

ARCHITECTURAL SOLUTION:

Designed micro-frontend layout with static SSR caching, resilient state hydration, and modular design tokens.

React

TypeScript

Tailwind CSS

Micro-Frontends

🏦 Banking & Brokerage

KEY CHALLENGE:

Strict security compliance, low-latency market data updates, high accessibility standards.

ARCHITECTURAL SOLUTION:

Implemented strict WCAG 2.1 AA compliant UI components with encrypted client-state handling.

Angular

RxJS

a11y

REST / WebSockets

🏥 Insurance & Healthcare

KEY CHALLENGE:

Complex multi-step form workflows, HIPAA privacy compliance, legacy system integrations.

ARCHITECTURAL SOLUTION:

Architected scalable wizard-pattern forms with dynamic schema validation and auto-save capabilities.

React

Formik/Zod

Node.js

Docker

🛡️ BPM, Automotive & Security

KEY CHALLENGE:

Real-time diagnostic dashboards, containerized micro-apps, cross-platform telemetry.

ARCHITECTURAL SOLUTION:

Engineered lightweight monitoring consoles utilizing WebSocket streaming and Cloud Native containers.

Kubernetes

OpenShift

Node.js

Chart.js
